

Ohmage Setup Guide. Ohmage 2.16 & MWF.

GUIDE to REGISTRATION, INSTALLATION, and PROJECT PARTICIPATION

Please see ohmage.org, demo.ohmage.org, and wiki.ohmage.org for more information. Full video tutorials for Ohmage 2.16 and Ohmage MWF are available on Youtube:

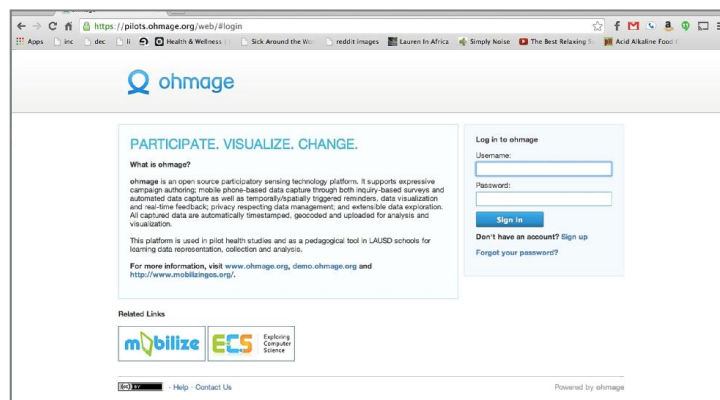

Ohmage 2.16 for Android: <http://youtu.be/tYtbgQvzmvg>

Ohmage MWF for iPhone: <http://youtu.be/ZJ1GAp2jtZY>

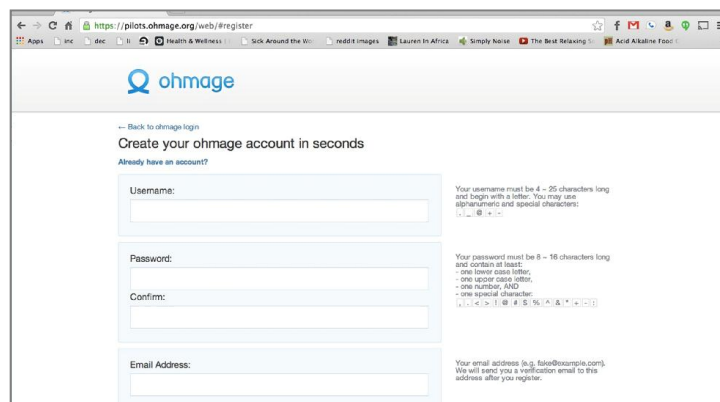

REGISTRATION:

If you are a **Researcher** or **Research Coordinator** interested in using Ohmage as a tool in data collection for your research, please contact the Ohmage team to register and receive a username and password:

Deborah Estrin at destrin@cs.cornell.edu or Josh Selsky at josh@ohmage.org.

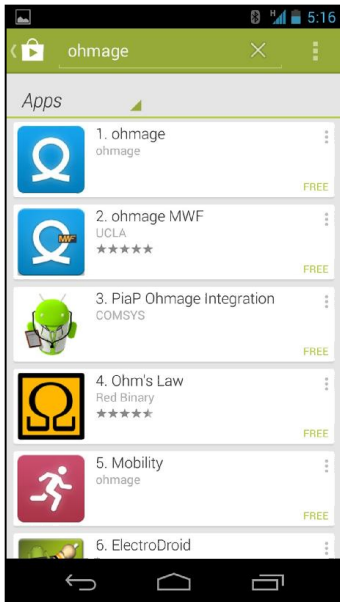

If you are an **Individual** interested in using Ohmage as a **personal** data collection tool, for the management of your own behaviors, you may self-register at <http://pilots.ohmage.org>, by clicking "Sign up" and creating a username and password.

If you are an **Individual** who is involved in a **research study** and you are using Ohmage under the supervision of a doctor, researcher, or coordinator as part of said research study, you will be given your username and password by the research team.

INSTALLATION for ANDROID

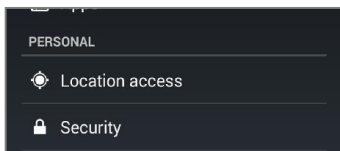

1. On your smart phone, open the Play Store and search for “Ohmage”.

1a. Select the Ohmage app (not Ohmage MWF) and tap Install. Accept the permissions to download.

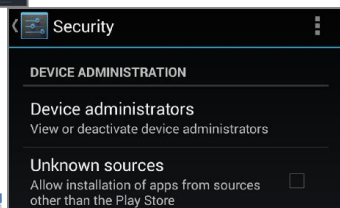

2. In the Play Store, search for “Ohmage”, then look for “Mobility” among the list.

2a. Select the Mobility app and tap Install. Accept the permissions to download.

3. IF your study involves the use of PAM (Photographic Affect Meter), you'll need to install this app directly from us.

3a. In the Settings menu on your phone, tap Security.

3b. Find Unknown Sources in the Security menu and check the box next to it. pop up window will appear. Tap OK.

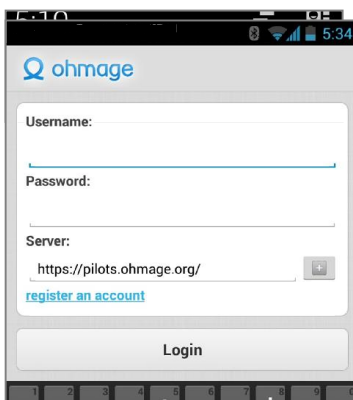

3c. Exit back out to your home screen and enter the following link into your phone's browser to download PAM:

<http://web.ohmage.org/omh/ohmagePAM.apk>
(Note: it is case sensitive!)

3d. Once the download completes, a notification will appear in your notification bar. Pull down the notification bar, tap the notification, and tap Install.

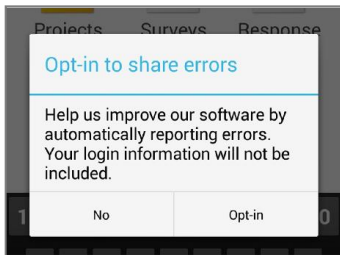

4. Launch Ohmage from your Applications menu.

5. Ohmage will prompt you to log in.

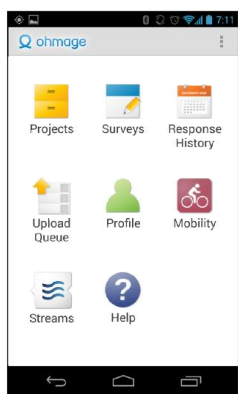

Enter your username and password, and select the appropriate server.

- If login is unsuccessful, check that your username is entered exactly, make sure you have selected the correct server, and remember that your password is case sensitive.

Upon successful login, this pop up will appear.

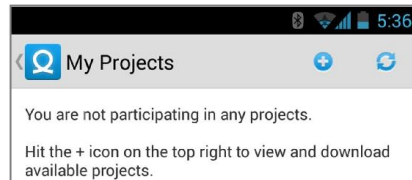

The Ohmage team would appreciate you “opting in” to reporting errors so that we can be made aware of them immediately.

PROJECT PARTICIPATION for ANDROID

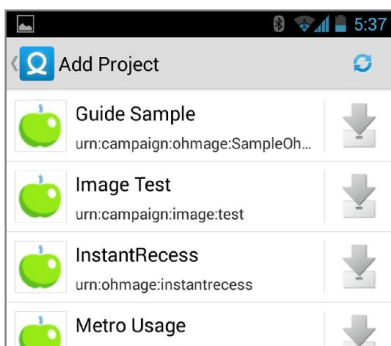

1. Once you have successfully launched and logged in to Ohmage, you will see the Ohmage Dashboard. Tap Projects.

2. In the Projects page, you will see any projects you are currently participating in. Tap the Plus Icon in the top right corner to add a project.

3. Select the project that you would like to add from the list.

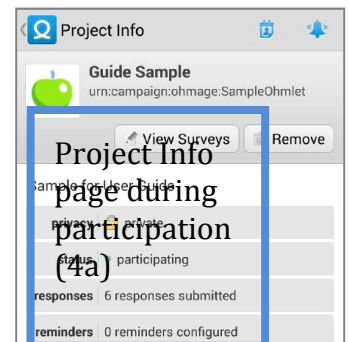

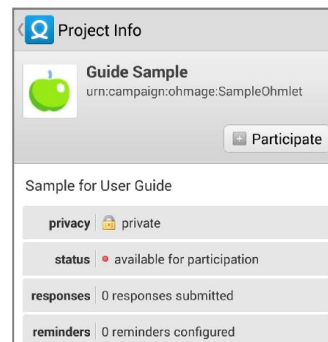

project that you would like to

3a. If you tap the Arrow Icon to the right of the project name, it will automatically download the project to your phone and begin your participation.

3b. If you tap the project name, it will direct you to the Project Info page, where you can read the project summary and description. You can also choose to participate from this page.

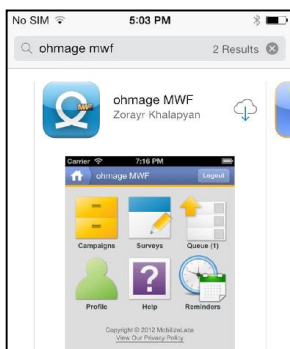

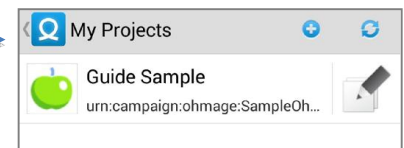

Project Info
page before
participation
(3b)

Project Info
page during
participation
(4a)

4. You can remove an added project by going to the My Projects page and tapping the name of the project. This will take you to the Project Info page, where you can View Surveys or Remove the project.

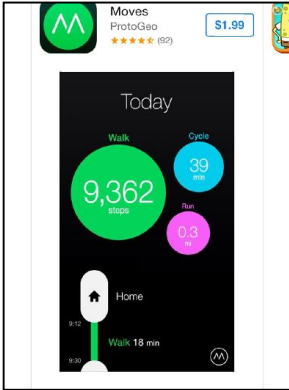

5. Once finished adding projects, tap the Ohmage Icon in the upper left corner to return to the Dashboard.

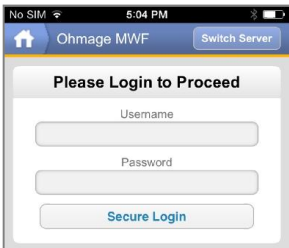

INSTALLATION for MWF (iPhone)

Ohmage Setup Guide. Ohmage 2.16 & MWF.

1. On your iPhone, open the App Store and search for “Ohmage MWF”.
 - 1a. Select the Ohmage MWF app and install it. Accept the permissions to download.

2. IF your study involves the use of a physical activity tracker, in the App Store search for “Moves”.
 - 2a. Select the Moves app by ProtoGeo and install it. Accept the permissions to download.

3. Launch Ohmage from your Applications menu.

4. Ohmage will begin by prompting you to log in. Enter your username and password, and **select the appropriate server.**

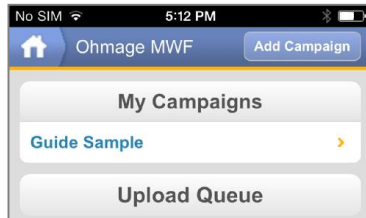

- If login is unsuccessful, check that your username is entered exactly, make sure you have the correct server selected, and remember that your password is case sensitive.

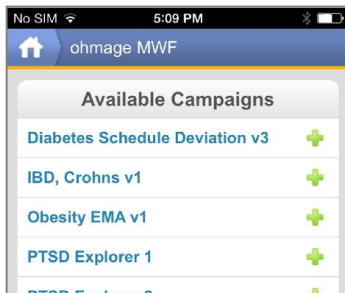

CAMPAIGN PARTICIPATION for MWF (iPhone)

1. Once you have successfully launched and logged in to Ohmage, you will see the Ohmage Dashboard. Tap Campaigns.

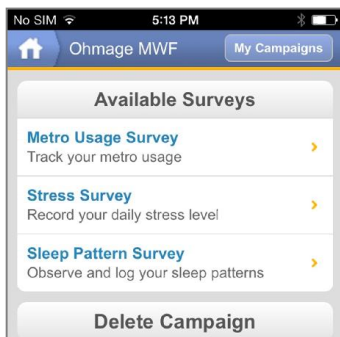

2. In the Campaigns page, you will see the campaigns you are currently participating in. Tap Add Campaigns in the top right corner to add a campaign.

If you are not currently participating in any campaigns, you will be directed automatically to the Available Campaign list.

3. Tap the campaign that you would like to add from the list – it will automatically download the campaign to your phone and begin your participation.

4. You can remove an added campaign by going to the My Campaigns page and tapping the name of the campaign. This will take you to the Campaign Info page, where you can see all of the campaign's available surveys or Delete the campaign.

5. Once finished adding campaigns, tap the Ohmage Home Icon in the upper left corner to return to the Dashboard.
